

◦ Wi-View 300V: Projector-to-Wireless Converter (incl. Wireless Hub)

Our new Wi-View 300V VGA Wireless Converter is an easy-installation unit which converts your standard VGA projector (or VGA screen, etc) to a wire-free device, allowing users to easily connect via their PC/laptop's wireless LAN facility.

With plug-and-play of the Wi-View hardware to the projector and simple, secure access software from the PC/laptop; fast, easy and wirefree presentation in the classroom/conference room is immediately available.

Supporting multi-user switching, any member of a conference/class can easily log into the Wi-View Server, switching their individual computer screen to the projector without moving computers or reconnecting cables.

Features:

- Fast, simple wireless presentation; no more cable swapping or trailing leads!
- Compatible with all projectors and screens featuring a VGA input
- Supports output resolution up to 1280x768 with 24 bit colour
- No installation CD required; software is directly downloaded from the Wi-View device
- Web-based user interface for easy configuration
- Conference control function, allowing host/chairperson to control multiple users during meetings
- Also features standard Wireless LAN access point function
