

Blackburn City Council Surveillance Vehicle

Advanced Security Systems, based in Oldham, have supplied a state of the art CCTV surveillance van for Blackburn City Council.

It features an Everfocus EDR810 8 channel mobile DVR to record CCTV images from cameras installed throughout the van. An Everfocus EKB500 desktop controller allows for control of a speed dome camera mounted on a telescopic pole, as well as controlling all the functions of the DVR.

Providing access to live and recorded images remotely via a GPRS connection, the mobile surveillance unit will be used for a wide variety of applications within the council's area including:

- Detering antisocial behaviour
- Prevention of street crime
- Observing unlicensed activity in entertainment premises
- Gather evidence for court proceedings
- Identify persons wanted by the police
- Crowd control
- Emergency planning
- Monitoring of traffic flows and patterns on the roads
