

Hard Rock Casino

In July 2002, Europe's first Hard Rock Casino opened in The Printworks, Manchester's liveliest urban entertainment venue. Featuring the latest music and video entertainment, two theme bars and a classic Hard Rock Casino Café overlooking the Casino floor, this really is a complete Rock & Roll night out under one roof!

In ensuring high quality foreground and background music reproduction throughout all areas of the Casino, bars and Café, specifying i-ceilings Sound Panels provided even dispersion throughout the space whilst preserving the clean, simple lines of the ceiling.
