## Holiday Inn, Gatwick

This busy 212 bedroom hotel has recently expanded its extensive facilities to include a brand new range of high grade conference and meeting rooms.

The specification for the Holiday Inn, Gatwick's new Business Centre ensured no compromise in either aesthetics or acoustics. With a clever design incorporating modern clean lines, the space has overcome the challenge of function over design.

i-ceilings Sound Panels have been installed into the service area creating the perfect audio system for the space whilst matching perfectly with the ceiling system.

**Holiday Inn, Gatwick**  
- London, England
