CIE-Group return to BETT 2010...

CIE-Group are back at BETT 2010 with our biggest and best stand yet and some incredible new products to be exclusively launched at the Show!...

As the world's largest education technology event, BETT (British Education and Training Technology) continues to grow with almost 700 exhibitors promising the very latest in hardware, software, content and services for the modern schools, colleges and universities sector.

So at this year's show we have raised our game even higher with a whole host of new AV product developments which we truly believe will make us the talk of the show!!

This year, on our biggest BETT stand ever (**Stand No. U79, National Gallery**) you'll see the official launch of our brand new **Pro-Vue Interactive** Projector and **Wi-View** Projector-to-Wireless Converter.

You'll also witness the exclusive preview of our new '**Luminus 3D**' system - believed to be the UK's first 3D digital signage system - be prepared to be as impressed as we are!!

...And if that weren't enough(?!), we have an excellent opportunity for all qualifying schools, colleges, universities and LEAs to register for an absolutely free **Ergotron Teachwell** Mobile Teaching Console worth over £700! (and yes - that's one each; and yes - we know it sounds too good to be true!).

More details inside!...

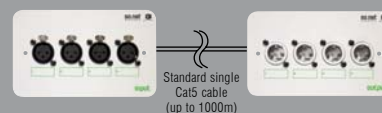

What's new?

- **Pro-Vue:** Portable Interactive Projector - interactive whiteboards without the whiteboard?!

- **Wi-View:** VGA Projector-to-Wireless converter

- **So.Net:** Sound-over-Ethernet 4 ch. Cat5 Audio Distribution System

- **Luminus AiO:** All-in-One Digital Signage Hardware/Software systems

Thur 14th Jan 10.00 ~ 18.00
Fri 15th Jan 10.00 ~ 18.00
Sat 16th Jan 10.00 ~ 16.00

Introducing the new Pro-Vue Interactive Projector

pro-vue.
i n t e r a c t i v e

The fantastic new **Pro-Vue Interactive** provides a whole new dimension to interactive teaching and presentation; all the benefits of an interactive whiteboard... without the whiteboard!

The Pro-Vue features integrated infrared technology which means that virtually any white (or light coloured) surface can be used as an interactive screen!

From a conventional wipe-clean whiteboard, to retractable tripod screens - or simply walls, ceilings or even floors! - any surface can be used as a fully interactive screen.

In addition, the size of your interactive 'screen' is only limited to the space available (imagine how big the screen could be using a simple, clear wall in the school hall?).

...And your interactive projector is **fully portable**. Easily stored/transported in a lightweight canvas bag, Pro-Vue Interactive can be taken anywhere your interactive presentation needs to go; whether it be room-to-room, city-to-city or even international travel (*imagine trying to transport any conventional interactive whiteboard setup on your next flight?!*)

Main Features:

- High brightness: - 2600 ANSI Lumens
- Supplied with both E-Pen & extendable E-Wand tools
- 4 x digital zoom
- Internal 8W speaker
- Simple, fast interactivity set-up

Stand U79, National Gallery

New 'Wi-View' 300V Projector-to-Wireless Converter

Also to be launched at BETT 2010, our new **Wi-View 300V** VGA Wireless Converter is an easy-installation unit which converts your standard VGA projector (or VGA screen, etc) to a wire-free device, allowing users to easily connect via their PC/laptop's wireless LAN facility.

With plug-and-play of the Wi-View hardware to the projector and simple, secure access software from the PC/laptop; fast, easy and wirefree presentation in the classroom/conference room is immediately available.

Supporting multi-user switching, any member of a conference/class can easily log into the Wi-View Server, switching their individual computer screen to the projector without moving computers or reconnecting cables.

Main Features:

- Fast, simple wireless presentation; no more cable swapping or trailing leads!
- Compatible with all projectors and screens featuring a VGA input
- Supports output resolution up to 1280x768 with 24 bit colour

Clever Little Website updates

You'll find full details, specifications, images and downloads for all these new products and the full range of Clever Little Boxes and AV cable & connectivity products online, as all our websites are updated daily.

Unbelievable Special Offer No 1!

interM
The Industry Standard.

FREE Inter-M Graphic Equalisers!!

This year you're going to see some fantastic new product developments and special offers from Inter-M – and what better way to start than with an incredible special offer like this?...

For every Inter-M stereo amplifier you buy (from the R-150, V1000, V2000, V3000 and V4000 range) **we'll give you an EQ2215 2 channel Graphic EQ (worth £175 Trade) – absolutely FREE!!**

An unbelievable offer - but true! This offer is only available while stocks last and – as you can imagine – won't last forever! Call the CIE-Group Sales Team now on T 0115 977 0075 for full details and to place your orders...

The UK's first 3D Digital Signage exclusive preview at BETT 2010!!

Together with live demonstrations of our new Luminis AiO – the all-in-one digital signage solution – we'll also be exclusively previewing our fantastic **Luminis 3D** – the first time that 'no-silly-glasses-required' 3 dimensional Digital Signage will be seen in the UK!

Combining the usability and functionality of our standard '2D' Luminis AiO system (straight from the box, networkable, hardware/software solution) - with lenticular 3D screen technology; this incredible **Luminis 3D** system takes 'outstanding digital signage' quite literally!

Previewed at Eventech Ireland in November, the system literally stole the Show – so make sure you join us on-stand at BETT to see it for yourself. **We guarantee you will be impressed!!**

Unbelievable Special Offer No.2!

Exclusively available at BETT 2010, we have partnered with **Ergotron** Digital Display Mounting Products to offer all qualifying schools, universities and LEAs a **FREE Teachwell™ Mobile Digital Platform (worth over £700!!)**.

To register for a free Teachwell System, visit the CIE-Group stand (U79, National Gallery) at The BETT Show and we'll happily sign you up there and then for your FREE system, delivered free of charge!!

(Qualifying schools must have a minimum of 1500 registered pupils, Colleges and Universities a minimum of 7500 registered students. LEAs must be registered by an official representative. Limited to 1 system per school, college, university or LEA).

AMAZING FREE OFFER!!

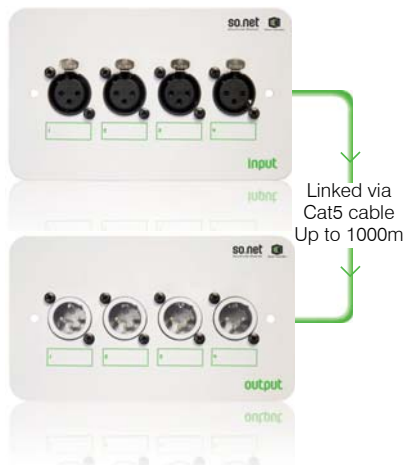

Chiayo Portable PA Systems get a facelift...

Our market-leading Chiayo range of Wireless Portable PA Systems have had something of a facelift with the addition of new products, easy-order pack systems and new features across the full range.

With 4-channel UHF capability now available on the Challenger and Victory, a new Focus 505 model, infrared version of the Focus 500 and our new 'Unity' UHF & VHF radio microphone systems, you'll find full details in the brand new Chiayo brochure, now available for download at www.cie-group.com or call the CIE-Group Sales Team on T 0115 977 0075 for free copies.

So.Net Boom!

December saw the official launch and immediate interest in our new '**So.Net**' Cat 5 Audio Distribution System.

Priced at a fraction of alternative, more complex sound-over-ethernet systems, **So.Net** has been designed to simplify and speed up audio installations where multiple microphone inputs or line level inputs need to be situated a distance from the amplifier equipment.

Using only one shielded Cat 5 cable to run up to four channels of mic and/or line over a distance of up to 1km, So.Net removes the need for multiple cable runs from remote audio inputs to the amplifier equipment.

Comprising of two double-gang faceplates - Input and Output, each featuring four XLR connectors – the signals can be independently configured for balanced or unbalanced, and mic or line level. There is also an option to provide phantom power to the microphone (to a maximum of 15v DC).

Each of the faceplate units fits neatly into a standard UK double-gang backbox and only requires a power supply at the output end of the system.

Download full details of So.Net at www.cleverlittlebox.com or call the sales office on T 0115 977 0075 for data sheets, stock and pricing details.
