

Clever Little Box

o PPS-2 Phantom Power Supply

The PPS-2 is a mains operated microphone phantom voltage power supply designed to power electret-type microphones via the signal cable.

It has two completely independent channels which can be internally configured to provide a balanced 48v, 24v or 12v DC supply to the microphone.

The default setting is 48v, which is the de-facto standard, and is therefore suitable for the majority of electret or condenser type microphones.

Specifications:

Model:	PPS-2:
No of Channels:	2
Phantom Voltage:	48v, 24v or 12v (selectable)
Input Configuration:	Balanced
Input Connectors:	2 x Female 3 pin XLR
Output Connectors:	2 x Male 3 pin XLR
Insertion Loss:	Negligible with < 600Ω mics
Power Supply:	230v 50Hz (110v option)
Consumption:	< 3W
Case Material:	Metal
Complies With:	DIN spec 45596 (P48)
Dimensions:	80(H) x 156(W) x 203(D) mm
Weight:	1.03kg including mains lead
