

Clever Little Box

• **TPG-5: Tone/Pulse Generator**

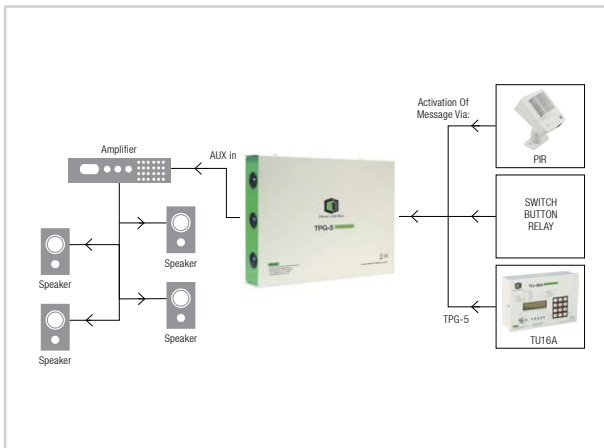

The TPG-5 device holds 5 factory-set/embedded alarms and tones which can be used in schools, factories and retail sectors for class change, shift start & stop or security signalling purposes.

Activation of the tones is via voltage-free NO or NC contacts, buttons, switches, PIR devices, or via the TU-16A Timer Unit. A pulsed activation will allow just one loop of the required tone; however, if the activation contact remains, the tone will play continually until disengaged.

A line level audio output signal is provided for interface to the amplifier.

Features:

- 5 factory-set alarms and tones
- Activation via NO/NC contacts
- Screw terminals for fast, simple on-site installation
- Strong, robust, compact unit
